The art of creation "à la française"

Quality, know-how and respect for the consumer and the environment have been the strengths of our family business since 1961.

I share these values day after day with my colleagues, all driven by the same passion: to create high-quality desserts to delight our customers.

Food safety, regular and ambitious investment, certification of all our production facilities, a strong environmental and social commitment, ERHARD Pâtissier Glacier meets the expectations of the most demanding customers.

An independent, strong, structured, modern and innovative company, ERHARD Pâtissier Glacier is now a major European leader in the world of desserts, thanks to the expertise of our pastry chefs, chocolate-makers, biscuit-makers and ice-cream-makers working in our 6 production sites.

I'm convinced that this success stems from our determination to surpass ourselves, to improve and to always come up with new ideas, as demonstrated by the many new products launched every year.

Excellence can never be taken for granted, and complacency will never be part of our culture.

ICED MOCHIS

A taste of Asia

Mochi, Japanese delicacies, have been revisited by our ice-cream makers in collaboration with Koichi IWATA, Japanese mochi expert.

Our assets? An authentic, very fine rice paste combined with our delicious artisan ice creams, a subtle blend of textures and flavours in keeping with Japanese tradition, and our ice creams and sorbets in exotic or more classic flavours.
